## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, from the preamble it is understood that "An apparatus for..." is being claimed. Later in the claim, line 11, "a shim that is associated with the roller shaft" suggests that an apparatus-roller shaft combination is being claimed. It is not clear from the claim language whether applicant attempts to claim "An apparatus for..." or a combination of the apparatus with the roller shaft.

Therefore the scope of the claim is confusing. Note similar errors in claim 11.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 8-13, and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Clark (1,985,976). Clark shows a clasp (40), a block portion(42), and a shim portion (29). Shim portion (29) is attached to the shaft portion (20).

***Allowable Subject Matter***

5. Claims 2-7, and 14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

6. Claims 16-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
